In these two terrible years when the massacre of the innocent has gone on under the eyes of our paralyzed rulers in Christian lands, we have thought that man alone could help. But it is women who are dying two deaths in the bloody East, and we, their sisters, cannot longer wait. You have nobly responded to my earlier appeal, and in the name of Christ and humanity, of the home against the harem, I earnestly and tenderly call upon you to organize meetings in every locality, urging our construction of the massacres and giving protection as to be addressed by the pastors, the business men and the most capable women. SHAKESPEARE AND THE BIBLE.

MRS. ANNA RANDALL DIEHL'S ADDRESS BE-FORE THE P. W. L.

Mrs. Anna Randall Diehl began her lecture on "Shakespeare and the Bible," which was delivered yesterday afternoon before the Professional Women's League, with a quotation from King Lear—"I will preach to thee; mark me." She then asserted that Shakespeare was as familiar with the Bible as he was with the book of nature, and proceeded to prove her point by a comparison of his works with those of

Instances of the influence of Scripture upon the language of the poet might be multiplied almost indefinitely, but no more beautiful one can be found than in Portia's speech about the quality of mercy. It droppeth, she says, like the gentle rain from heaven, and in the Psalms we read: thow pleasant it is for brethren to dwell together in unity—as the dew of Hermon, and as the dew that descended upon the mountains of Hermon. CONGREGATIONAL WOMEN MEET.

The New-York and Brooklyn District Society of the Congregational Woman's Home Missionary Union held its annual meeting yesterday in the Clinton Avenue Congregational Church, in Brooklyn. The session opened at 11 o'clock, forty-eight auxiliaries being represented, including eight added during the year. Mrs. William Kincald is president, but Mrs. W. C. Peckham, chairman of the Executive Committee, presided.

Mrs. R. R. Meredith, of the Tompkins Avenue

The present Board of Managers and the present Advisory Board were re-elected. Reports were read by the treasurer and secretary telling how great is the work done by the society in helping the educated poor to find some sphere of usefulness and in teaching them to do something of money value to the public.

More applicants than usual have come to the Exchange in the last year, but patronage has increased in due proportion, and the figures make a very satisfactory showing for the women who are earning their living through this society.

The society looks to the public for subscriptions to pay the house rent and the salaries of those employed to carry on this work.

NEEDLEWORK POSTERS.

From The Chicago Times-Herald.

From The Chicago Times-Herald.

Now we are to have posters in embroidery. One of the largest drygoods stores in Chicago says sofa pillows, book and magazine covers and door curtains are to be decorated with Beardsley and Bradley designs, copied from posters and magazine covers. Another store shows "football pillows," huge cushions decorated with the figure of a football player, wonderfully and yet naturally accourted, and the embroidered legend, "A Leather Rusher," Other pillows of the same general style are shown covered with raised figures, representing votaries of tennis, golf and the wheel, disporting themselves in divers strange and wondrous attitudes, and the price of these articles is something colossal. Fourteen to twenty dollars is not considered anything remarkable for a pillow of this kind, and the cost of the materials is no trifle to begin with. But pillows like these can be made at home much more cheaply than they can be bought.

To do this a pillow is first made or purchased, or the curtain, book cover, or whatever is to be decorated, is prepared, and the figures to be added are cut from cloth, velvet or whatever material seems most suitable. For football or baseball players cloth is best, and the masks, stockings and belts are usually worked in embroidery. The poster idea is followed out as far as possible, and the decorations are made as wild and "posterish" as the imagination and skill of the worker will allow. The colors, for the atthletes, are copied from real life. The girl who can procure a piece of real, sure-enough material which has seen hard service in its capacity of ataletic suit is more than lucky. Coilege boys have found a new use for their wornout training suits since the advent of the football pillows.

The poster articles, on the contrary, are made as bright and new looking as possible. Only one willow of the kind has been seen in Chicage as

women. The State association has banded together to do all in its power to defeat every candidate for office who refuses to openly declare himself for equal suffrage.
